

## MARKING SCHEME THE ROYAL EXAM SERIES

Kenya Certificate of Secondary Education

## 441/2 — HOME SCIENCE — Paper 2

TASK		MAXIMU M SCORE	SCORE	REMARKS
1	PRESENTATION	1.1000112		
	Work well pressesd and folded.	2		
	Pins and unnnecessary tacking and	2		
	hanging threads removed.	2		
c)	Clearly written label, firmly fixed on	2		
	single fabric without concealing details	4		
4)	Made the left half	1		
	b total	9		
Bu	b total			
2. CU	TTING OUT			
	All five pieces cut out	5		
	The back bodice cut smoothly and on			
	grain at CB	2		
c)	Skirt back cut smoothly and on grain at			
,	СВ	2		
d)	Skirt front cut smoothly and on grain at			
	CF	2		
e)	Frill cut on grain and smoothly at both			
,	CF and CB	2		
Sub to	Sub total			
3	THE MAKING OF THE DART			
	a. Straight and firm stitchery	1		
	b. Dart tapering to a point without			
	pocket	1		
	c. Secured at the point firmly	1		
	d. Correct width of dart 1cm to			
	within 2mm	1		
	e. Correct length of the dart 6cm to			
	within 2mm	1		
	f. Dart pressed to the CB and flat	2		
sub total		7		
4. <b>NE</b> A	ATENING OF THE FREE EDGE OF			
	THE FACING			
a)	a) Free edge folded 0.5cm from the edge to			

sub total  5  Sincothly and firmly stitched close to the edge  sub total  5  Sincothly and firmly stitched close to the edge  5  Sincatening of Neckline Using The Front Facing  a) Front facing folded at the fold line b) Neckline seam stitched smoothly and firmly c) Neckline seam stitched smoothly and firmly c) Neckline flat and well knife edged c) Neckline flat and well k	within 2mm to the W.S	2
sub total 5  S. NEATENING OF NECKLINE USING THE FRONT FACING  a) Front facing folded at the fold line b) Neckline seam stitched smoothly and firmly 2  c) Neckline seam trimmed and snipped 2  d) Neckline flat and well knife edged 2  sub total 7  1. SHOULDER SEAM (Double stitched seam if not give zero) a) 1st line done with firm and straight stitchery b) Seam fell folded to the back c) Raw edge neatly tucked in to conceal raw edge d) 22st line done with firm and staight stitchery e) Correct size of complete seam (0.6cm to within 2mm) f) Eveness of the seam g) Seam well pressed and flat on W.S and RS.  sub total 8  7. JOINING BODICES TO SKIRTS USING PLAIN SEAMS (If not give zero)  a) Front bodice and front skirt joint with straight and firm stitchery b)Back bodice and back skirt joined with straight and firm stitchery c) Bodices and skirts flashing at CF and CB to within 2mm  NEANITENING using loop stitches, (If not loop stitches, give zero g to j) d) Seam turnings trimmed to 1cm e) Both seams turnings neatened together 1		
Sub total   S   S	b) Smoothly and firmly stitched close to the	
5. NEATENING OF NECKLINE USING THE FRONT FACING  a) Front facing folded at the fold line b) Neckline seam stitched smoothly and firmly c) Neckline seam trimmed and snipped d) Neckline flat and well knife edged  2 sub total  7  1. SHOULDER SEAM (Double stitched seam if not give zero) a) I <sup>all</sup> line done with firm and straight stitchery b) Seam fell folded to the back c) Raw edge neatly tucked in to conceal raw edge d) 2 <sup>nd</sup> line done with firm and staight stitchery e) Correct size of complete seam (0.6cm to within 2mm) f) Eveness of the seam g) Seam well pressed and flat on W.S and RS.  sub total  8  7. JOINING BODICES TO SKIRTS USING PLAIN SEAMS (If not give zero) a)Front bodice and front skirt joint with straight and firm stitchery b)Back bodice and back skirt joined with straight and firm stitchery c) Bodices and skirts flashing at CF and CB to within 2mm  NEANITENING using loop stitches. (If not loop stitches, give zero g to j) d) Seam turnings trimmed to 1cm e) Both seams turnings neatened together	edge	3
5. NEATENING OF NECKLINE USING THE FRONT FACING  a) Front facing folded at the fold line b) Neckline seam stitched smoothly and firmly c) Neckline seam trimmed and snipped d) Neckline flat and well knife edged  2 sub total  7  1. SHOULDER SEAM (Double stitched seam if not give zero) a) 1 <sup>st</sup> line done with firm and straight stitchery b) Seam fell folded to the back c) Raw edge neatly tucked in to conceal raw edge d) 2 <sup>nd</sup> line done with firm and staight stitchery e) Correct size of complete seam (0.6cm to within 2mm) f) Eveness of the seam g) Seam well pressed and flat on W.S and RS.  sub total  8  7. JOINING BODICES TO SKIRTS USING PLAIN SEAMS (If not give zero) a)Front bodice and front skirt joint with straight and firm stitchery b)Back bodice and back skirt joined with straight and firm stitchery c) Bodices and skirts flashing at CF and CB to within 2mm  NEANITENING using loop stitches. (If not loop stitches, give zero g to j) d) Seam turnings trimmed to 1cm e) Both seams turnings neatened together		
a) Front facing folded at the fold line b) Neckline seam stitched smoothly and firmly c) Neckline seam trimmed and snipped d) Neckline flat and well knife edged  7  1. SHOULDER SEAM (Double stitched seam if not give zero) a) 1st line done with firm and straight stitchery b) Seam fell folded to the back c) Raw edge neatly tucked in to conceal raw edge d) 2st line done with firm and staight stitchery e) Correct size of complete seam (0.6cm to within 2mm) f) Eveness of the seam g) Seam well pressed and flat on W.S and RS.  sub total  7. JOINING BODICES TO SKIRTS USING PLAIN SEAMS (If not give zero)  a)Front bodice and front skirt joint with straight and firm stitchery b)Back bodice and back skirt joined with straight and firm stitchery c) Bodices and skirts flashing at CF and CB to within 2mm  NEANITENING using loop stitches. (If not loop stitches, give zero g to j) d) Seam turnings trimmed to 1cm e) Both seams turnings neatened together	sub total	5
a) Front facing folded at the fold line b) Neckline seam stitched smoothly and firmly c) Neckline seam trimmed and snipped d) Neckline flat and well knife edged  7  1. SHOULDER SEAM (Double stitched seam if not give zero) a) 1st line done with firm and straight stitchery b) Seam fell folded to the back c) Raw edge neatly tucked in to conceal raw edge d) 2st line done with firm and staight stitchery e) Correct size of complete seam (0.6cm to within 2mm) f) Eveness of the seam g) Seam well pressed and flat on W.S and RS.  sub total  7. JOINING BODICES TO SKIRTS USING PLAIN SEAMS (If not give zero)  a)Front bodice and front skirt joint with straight and firm stitchery b)Back bodice and back skirt joined with straight and firm stitchery c) Bodices and skirts flashing at CF and CB to within 2mm  NEANITENING using loop stitches. (If not loop stitches, give zero g to j) d) Seam turnings trimmed to 1cm e) Both seams turnings neatened together
