- **23.** Why do you make that mistake <u>over and over again?</u>
 - A. Repeatedly
- B. Sometimes
- C. Rarely
- D. Always

For questions 24 and 25, choose the correctly punctuated sentence

- **24.** A. Its always good to follow instructions given.
 - B. What a bad day it was!

- C. Where did your mother travel to.
- D. I saw twenty eight monkeys swinging on the trees.
- **25.** A. How did the learners perform in the national assessment?
 - B. Monica the local soloist came to the occasion late.
 - C. Did you find your lost pen, asked Maria.
 - D. What a stupid thing to do.

Read the passage below and then answer questions 26 – 38

To us, hunting was not a sport but a means of earning the family a livelihood. Many boys were introduced into it early. In fact, it was said, the earlier the better. Wild animals were not as rare as they are these days. We could even choose which animals to kill and which ones to let go. Many boys of my age even knew how each animal's meat tasted, so sometimes we could afford to be choosy on what to take home. Whatever we did not approve of was fed to the dogs as an appreciation for a job well done.

Hunting began early. We did this timing purposely. Most of our dogs were fed at night only and so they would be hungry in the morning. A hungry dog, we believed, was ferocious and fast just as it is said, "A hungry man is an angry man." On the other hand, the animals we hunted seemed to be inactive in the morning hours. We took it that they were still sleepy and tired after the sleep so their speed and response was to our advantage. We carried clubs and pangas but we rarely used them as the dogs did their job well. We mostly needed the pangas when we killed a bigger animal like an antelope. Sharing was done equally and the dogs were rewarded with what we did not need to carry home.

So that particular morning it was not strange that I had not taken any morning meal when my friends called on me. I can't blame them for we rarely had breakfast anyway. I took my king-sized club and whistled to invite our dogs to join the party. Soon, we were on our way to Pundo, the bushy rugged grounds we often got our luck. That particular morning, there was cloud cover. It looked dull, probably a sure sign of things to come but which I failed to read.

It was typical of us to go in different directions once we reached Pundo. We would then communicate by shouting and whistling. If one saw or suspected the presence of an animal nearby, we knew what to do. Soon, it would be cornered and bugged in. There were also wild fruits which we cherished because of their taste. It was, however, easy to make a mistake on the choice I made that day.

I was beginning to feel hungry when I got attracted to what looked like 'Ochuoga' the tasty fruit we would have easily fought over. I wasn't an expert at identifying plants, but I convinced myself that it was the one. A ripe 'Ochuoga' fruit is usually pink or even purple, but these were cherry red and since I had no one to rely on, I feasted hungrily and happily. I even kept a few in my pocket in case I needed more later.

Soon, I heard my friends shouting and I knew what to do. The dogs responded but my legs felt too heavy to move. I saw a flat stone, big enough for me to sit on. I moved to it, sat comfortably. What followed was strange. I only remember waking up when the sky was clear and the sun was high up. It must have been around three o'clock! I was shocked that I was really wet. As I slept, I had been rained on heavily and it is this that made me realize what had happened to me.

I dragged myself back home, a journey which seemed longer than ever. Interestingly, my friends had deposited a large chunk of meat at home as my share but said nothing about my whereabouts. I reached home and removed my wet clothes. It is the contents of the pocket that made me become the laughing stock of the family.

- **26.** Why were many boys introduced to hunting early in life?
 - A. The number of wild animals needed to be controlled.
 - B. There was a lot of hunger in the writer's village.
 - C. The parents ensured they moved out of the home early.
 - D. It would be a benefit to the income of the family.
- 27. The main reason why the boys did not kill all animals is that
 - A. the animals were more than they are nowadays.
 - B. it was not easy to find them in the bushes.
 - C. they would have no animals to kill in future.
 - D. not all animals' meat was readily acceptable.

- 28. Which of the following words would mean much the same as what the boys took home after hunting?
 - A. Body

B. Corpse

- C. Carcass
- D. Remains
- **29.** Preference of the meat of the animals killed to be taken home was based on
 - A. the size of the animal killed.
 - B. the size of each hunter's share.
 - C. the taste of the meat.
 - D. the choice of individual hunter.
- **30.** The time at which the boys began hunting was all of the following except?
 - A. coincidental

B. intentional

- C. deliberate
- D. pre-arranged
- **31.** Which of the following statements is not true according to the passage?
 - A. Weapons were not very essential to the boys as they hunted.
 - B. No hunter ever took breakfast before going to hunt.
 - C. The dogs did not like the way the boys treated them.
 - D. Both the dogs and the boys had a reason to be happy after a hunt out.
- **32**. As the boys accompanied by the writer walked out of the writer's home
 - A. they knew which animals would easily be got at that time.
 - B. they intended to kill hungry and sleepy animals.
 - C. they knew the rain could easily affect their activity.
 - D. they were in high spirits in spite of the weather.
- **33.** Why did the writer expect himself to have read the weather in time?
 - A. His predicament in the course of the day seemed to suggest so.
 - B. He is the only one who was caught in the rain.

- C. He was among the youngest in the hunting party.
- D. He had once suffered the same fate.
- **34.** Which of the following factors contributed to the writer's wrong choice of fruits?
 - A. The colour of the fruit.
 - B. The arrival time of the hunting party.
 - C. Failure to take a meal earlier on.
 - D. The direction he took when they reached Pundo.
- **35.** Had the writer not put some of the fruits in his pockets
 - A. he would have responded to the shouts of his fellow hunters.
 - B. he would have created a different impression to the family.
 - C. he would have reached home faster than he did.
 - D. he would have avoided being rained on.
- **36.** The writer's friends left him a portion of the meat
 - A. as a sign of appreciation.
 - B. to please the writer's parents.
 - C. to convey their sympathy.
 - D. as it was a routine.
- **37.** Why did the writer not take shelter while it rained?
 - A. There was no house nearby.
 - B. He had probably passed out.
 - C. It was unheard of for hunters to take shelter.
 - D. He was sound asleep after eating the fruits
- **38.** The **best** summary for this passage would be
 - A. Disobedience does not pay.
 - B. Life is not a bed of roses.
 - C. Not all friends we make in life are useful.
 - D. There are a lot of challenges as we grow up.

Read the passage below and then answer questions 39 – 50

Many young people do not know how to use their leisure time wisely and often say that they are bored.

There are very many sporting activities which you can take up as a hobby. You can choose a team activity like football, basketball or netball. If you are good at running, you can train and take part in competitions. Swimming is another sporting activity. All of these activities are good for your health as well as enjoyment.

If you prefer quieter activities, you can find a conducive environment in your local library and make reading your hobby. This is not like school work because you can choose what to read. You can read novels or, if you prefer, you can use books to discover new facts about subjects which interest you. You can even look for a book on hobbies! Those of you that have access to computers can use them for both reading and writing. You can discover about anything on the internet. Just get connected and surf.

Gardening is a practical skill which can give you pleasure. You can choose what to grow. Some people like to beautify the environment with flowers, bushes and trees. Others are more interested in growing vegetables and fruits. If you are a successful gardener, you can display your produce at the local Agricultural show.

Another quiet hobby is playing board games such as chess, draughts, judo, snakes and ladders or 'bao'. These are games which you can play with one or two friends. You have to concentrate a lot and be alert in these games if you want to win. If you are good at chess you can take part in the World Chess Championships! If you excel you will be called a grand master.

You can gain a lot by joining a youth group. Your local church or mosque or temple is likely to organise activities for youths. These include drama, youth camps, study groups, doing community work such as helping the old, planting trees and cleaning the environment. You may have to

endure a lot of hard work, but you will also get a lot of pleasure from helping others.

Perhaps the most famous youth groups are the scouts and girl guides movements. Scouts and girl guides are noted for their community work. They are also great collectors. If you join one of these groups, you will spend time gaining on all kinds of things.

There are other activities that the youth get into such as taking drugs and smoking. These are not hobbies. Hobbies develop your talents and skills and make you a better person. As a youth, think about the options available and start today.

- **39.** What message is being put across in the passage?
 - A. How to misuse your leisure time.
 - B. How to choose a hobby.
 - C. How to behave at school.
 - D. How to discover books in life.
- **40**. If one prefers quiet activities, where can one find a conducive environment according to the passage?
 - A. In a swimming pool.
 - B. In a book shelf.
 - C. In a local library.
 - D. In sports and teams.
- **41.** According to the passage, you can discover about anything on
 - A. reading novels.
 - B. accessing the computers and books.
 - C. concentrating on your school books.
 - D. the Internet.
- **42**. Gardening is a ____ which can give you pleasure.
 - A. hobby
 - B. life skill
 - C. practical skill
 - D. beautiful thing
- **43.** Which hobbies are described in the fifth paragraph?
 - A. Football, basketball, netball, swimming and running.
 - B. Draughts, snakes and ladders, 'bao' judo, and chess.
 - C. Chess, judo, snakes, netball, swimming.
 - D. Snakes, ladder or bao, football and running.
- **44.** What title is given to one who excels in the World Chess Championships?
 - A. Champion
 - B. Great master
 - C. Grand master
 - D. Grand muster

- **45.** According to the passage, who is likely to organise activities for the youth?
 - A. Community and the local leaders.
 - B. Church, temple and local leaders.
 - C. Church, mosque or temple.
 - D. Church, community and local area.
- 46. Which word means the same as endure?
 - A. Persisting
 - B. Give up
 - C. Try last time
 - D. Give in
- **47.** What activities do youth groups do?
 - A. Drama, travelling, singing and dancing.
 - B. Drama, youth camps, study, community work.
 - C. Cutting trees, studying, visiting others, polluting environment.
 - D. Drama, travelling, smoking and taking drugs.
- 48. Mention two activities that the youth engage in which are not hobbies?
 - A. Scouts and girl guides.
 - B. Drama and youth camps.
 - C. Taking drugs and smoking.
 - D. Smoking and scouts.
- 49. From the passage, hobbies help in
 - A. developing immorality among the youths.
 - B. training the youth to become prominent gangs.
 - C. developing our talents and skills.
 - D. developing you to start practising adulthood.
- 50. The best title for this passage would be
 - A. Smoking as a hobby.
 - B. Scouts and girl guides movements.
 - C. Choosing a hobby.
 - D. Youth groups.

The diagram below shows the female 1. reproductive system.

In which part labelled above is a zygote found?

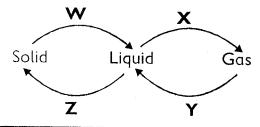

A. M

B. N D.R

C. T

2. Which one of the following immunisable diseases is a child immunized against at the age of 6 weeks, 10 weeks and 14 weeks after birth?

- A. Tetanus
- B. Measles
- C. Tuberculosis
- D. Meningitis
- 3. For a seed to change to a seedling all the conditions below are needed except
 - A. warmth
- B. moisture
- C. oxygen
- D. carbon dioxide
- During a nature walk, pupils from Lang'ata primary noticed a bird that had short. straight and thick beak. The bird is likely to
 - A. filter feeder
- B. nectar feeder
- C. grain eater
- D. flesh eater
- 5. The safety measures below should be considered when dealing with electricity except
 - A. avoid overloading the sockets
 - B. never insert nails in sockets
 - C. avoid sheltering under trees when raining
 - D. do not run electric cable under the carpet
- The chart below shows the change of state in matter.

Which two processes involve absorption of the heat by the environment?

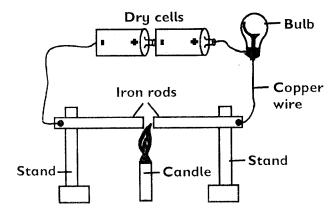

- A. W and X
- B. X and Y
- C. Y and Z
- D. W and Z
- 7. Which is the second method of separating mixture of sand, salt and iron fillings?
 - A. Use of a magnet
 - B. Dissolving
 - C. Evaporation
 - D. Filtering
- 8. Which one of the following is an electric device?
 - A. Gas cooker
 - B. Solar panel
 - C. Water heater
 - D. Solar drier
- The diagram below is a tooth. 9.

Which statement below is true about the tooth above?

- A. It is the last to grow in the first set of teeth
- B. Its used for grinding and biting
- C. They are 12 in a child of 12 years
- D. Its part of the wisdom teeth
- 10. The exchange of gases in a human being takes place in the
 - A. nose
- B. lungs
- C. diaphragm
- D. trachea
- 11. Which one of the following shows correctly the stages followed during reproduction in plants?
 - A. Pollination —➤ growth of pollen tube —➤ fertilization → germination of pollen
 - B. Germination of pollen --- pollination → fertilization → growth of pollen
 - C. Pollination → fertilization → pollen grain germinate --> growth of pollen
 - D. Pollination --> pollen grain germinate → growth of pollen tube → fertilization

- 12. The following are advantages of soft water except
 - A. good for drinking
 - B. lathers easily with soap
 - C. best for laundry
 - D. clogs hot water pipes
- **13**. The diagram below was used by STD 7 pupils.

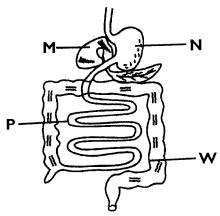

The set up above can be used to conclude that

- A. iron rods conduct heat
- B. heating causes expansion of matter
- C. iron rods and copper wire conduct electricity
- D. dry cells are sources of current electricity
- **14.** Which one of the following is **correct** about the excretory organs and their wastes?

A.	Kidney	Water, urea, lactic acid.		
B.	Skin	Urea, salt, lactic acid		
C.	Lungs	Water, carbon dioxide,		
		salt		
D.	Bladder	Urea, water, salt		

- **15.** Which one of the following is the **main** advantage of breast feeding an infant exclusively for the first 6 months?
 - A. Bonds the mother and the child
 - B. Helps in formation of strong bones and teeth
 - C. Boosts the immunity of the child
 - D. Helps in blood formation
- **16.** A certain plant had air sack and thin cuticles. The plant is also likely to have
 - A. waxy upper surface
 - B. deep and wide spread roots
 - C. fleshy thick stems
 - D. silvery and shiny hair

17. The diagram below shows the human digestive system.

Which part labelled above is **correctly** matched with its function?

- A. M produce pancreatic and intestinal juices.
- B. N digestion of starch and milk starts there.
- C. W Absorption of food, water and minerals.
- D. P Absorption of digested foods.
- **18.** Which one of the following is **not** a natura way of lighting a house?
 - A. Use of skylight
 - B. Connecting bulb to solar panel
 - C. Opening windows and doors
 - D. Use of transparent roof
- **19.** Which group of plants below obtain nutrients by feeding on insects?
 - A. Oxalis, wondering jew, pigweeds
 - B. Toadstool, puffball, yeast
 - C. Venus fly trap, ferns, sundew
 - D. Butterworts, pitcher plant, sundew
- 20. Four boys classified food as shown below John Maize, beans, sorghum, carrot. Peter Cabbage, spinach, carrot, mango Jude Watermelon, bread, chips, chapati Tom Milk, honey, meat, eggs Who among the four boys gave the food that boosts the immunity of the body?
 - A. Peter

B. John

C. Jude

D. Tom

- **21.** Which one of the following is a health effect of drug abuse?
 - A. Truancy

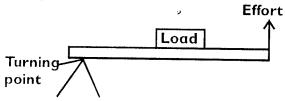

B. Accidents

C. Addiction

D. Rape

- **22.** The **best** instrument to determine the mass of an object is
 - A. beam balance
 - B, a see saw
 - C. spring balance
 - D. thermo gum

23. The diagram below shows a lever in use.

Which lever when in use has the same arrangements for the load, effort and fulcrum as the one above?

A. Spade

B. Fishing rod

C. Claw hammer

D. Wheelbarrow

- 24. Which one of the following is the **best** method of preventing the spread of HIV/ AIDS by married partners?
 - A. Abstaining
 - B. Being faithful
 - C. Visiting VCT
 - D. Use of condoms
- 25. HIV and AIDS cannot be spread through the following except
 - A. mosquito bites
 - B. sharing the utensils
 - C. shaking hands
 - D. circumcision
- **26.** Std 6 pupils had a poster which had the information below on prevention of a certain disease.
 - * Stay at home
 - * Keep social distance
 - * Wash hands regularly with soap and flowing water
 - * Wear mask when in public

The above disease is likely to be caused by:

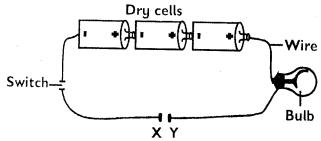

A. bacteria

B. virus

C. fungus

D. insects

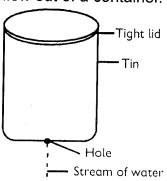

- 27. Which is the **best** method of getting rid of plastics and tins in the environment?
 - A. Burying deep in the soil
 - B. Burning them
 - C. Recycling
 - D. Re-using
- **28.** Std 7 pupils arranged the set-up below during a Science lesson.

Which materials can be used to connect the gap **XY** to make the bulb to burn?

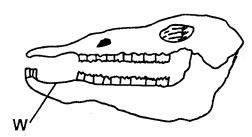

- A. Graphite
- B. Wool
- C. Chalk
- D. Dry stick

- **29.** Which one of the following is **true** for oil and water vapour? Both
 - A. have definite shape
 - B. have definite size
 - C. have indefinite mass
 - D. have definite weight
- **30.** The diagram below shows how liquids flow out of a container.

Which of the following would make the water to flow out smoothly?

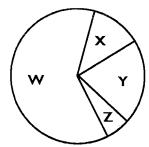

- A. Raising the container
- B. Making a hole on the lid
- C. Shaking the container
- D. Increasing the size of the hole
- **31.** Which of the following groups consists of **only** internal livestock parasites?
 - A. Flea, mite, ticks
 - B. Roundworms, tsetsefly, hookworms
 - C. Tapeworms, flea, liver flukes
 - D. Lungworms, roundworms, hookworm
- **32.** Which one of the following shows conservation of water by using sparingly?
 - A. Using sprinklers
 - B. Treating sewage
 - C. Repairing broken pipes and tanks
 - D. Mulching
- 33. Below is a jaw of a certain animal.

The part marked **W** is used for:

- A. Cutting the plant materials
- B. Tearing flesh from bones
- C. Help in proper turning of food when chewing
- D. Prevent the biting of tongue when chewing food
- 34. Which pair of the material below are all floaters?
 - A. Pins and sand
 - B. Ice and leaves
 - C. Marble and leather
 - D. Plastic cork and marble

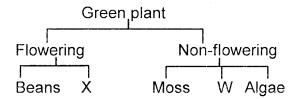

- 35. Air pollution cannot be controlled by
 - A. treating the sewage
 - B. controlled use of farm chemicals
 - C. driving vehicles with well maintained engines
 - D. control use of aerosol sprays
- 36. The soil drainage can be improved by
 - A. adding inorganic matter
 - B. adding water
 - C. adding chemical fertilizer
 - D. adding organic mulches
- **37.** The chart below shows air composition.

Which two gases are required by plants to make their own food and nutrients?

- A. W and Y
- B. X and Y
- C. W and X
- D. W and Z
- **38.** In a food chain the component which is in abundance is
 - A. producers
 - B. primary consumer
 - C. secondary consumers
 - D. tertiary consumer
- 39. Which group of food below contains fats?
 - A. Maize, beans, cabbage.
 - B. Groundnuts, irish potato, yams
 - C. Coconuts, groundnuts, avocado
 - D. Sim sim, peas, carrots
- **40.** Heat from the burning jiko reaches the feet of a person seated by the side through a process called
 - A. convection
 - B. radiation
 - C. conduction
 - D. convection and radiation
- **41.** When light move from one medium to another it
 - A. bounces back
- B. is absorbed
- C. bends
- D. reflected
- **42.** A child with a pot belly, brown hair and sores at the corner of the mouth should be fed with:
 - A. ugali, beans, spinach
 - B. milk, eggs, beans
 - C. orange, cabbage, carrot
 - D. maize, rice, cassava

- **43.** Which of the following substances consists of only material that can allow magnetic force to pass through them?
 - A. Paper, plastic plate, aluminium foil.
 - B. Steel plate, tin bowl, razorblade
 - C. Copper wire, iron nail, silver coin
 - D. Paper, feather, steelwool
- **44.** Which group of animals below lay eggs and have varying body temperature?
 - A. Birds and reptiles
 - B. Fish and mammals
 - C. Amphibians and reptiles
 - D. Fish and birds
- **45.** All the following are rotational methods of grazing **except**
 - A. paddocking
- B. herding
- C. tethering.
- D strip grazing
- **46.** Which group of sexually transmitted infections are caused by bacteria **only**?
 - A. Genital herpes and Chancroid
 - B. HIV/AIDS and Syphilis
 - C. Chancroid and Gonorrhoea
 - D. Gonorrhoea and Tuberculosis
- **47.** Which statement below is **not true** about the pulmonary vein in blood circulatory system?
 - A. Carries deoxygenated blood
 - B. Carries blood to the heart
 - C. Has valves
 - D. Carries oxygenated blood
- **48.** The chart below shows the classification of plants.

Which plant **best** represents **X** and **W** respectively?

- A. Mushrooms, maize
- B. Wheat, conifers
- C. Ferns, maize
- D. Sorghum, millet
- 49. Hard water is softened by
 - A. adding soap
- B. adding salt
- C. cooling D. boiling
- **50.** The two forms of energy that can be transmitted without a medium are
 - A. sound and electricity
 - B. sound and heat
 - C. heat and light
 - D. heat and electricity

- 1. Which one of the following is 48040878 in words?
 - A. Four hundred and eight thousand four thousand eight hundred and seventy eight
 - B. Forty eight thousand forty thousand seven hundred and seventy eight
 - C. Four hundred and eighty four thousand eight hundred and seventy eight
 - D. Forty eight million forty thousand eight hundred and seventy eight.
- 2. What is the place value of digit 2 after working out 3.3 x 2.25?
 - A. Ones
- B. Tenths
- C. Hundredth
- D. Thousandths
- 3. Work out the value of $4(6^2 5^2)^2 + 72 \div 6$
 - A. 496
- B. 133
- C. 560
- D. 1948
- 4. The ages of 6 pupils was recorded in years as 15, 13, 12, 15, 14 and 12. What was the median age?
 - A. 14 years
- B. $13\frac{1}{2}$ years
- C. 27 years
- D. 13 years
- 5. What is twice the value of

$$\frac{3}{4}$$
 of $\left(\frac{3}{5} + \frac{1}{6}\right) : \frac{1}{3}$?

A. $1\frac{3}{20}$

В. 6<u>9</u>

- C. $3\frac{9}{20}$
- D. $\frac{23}{60}$
- each. She paid sh.100 for transportation for each bag. She was charged sh. 20 for each bag in the market by the County Government. She sold each bag at sh.2300. How much profit did she make?
 - A. sh. 11400
- B. sh. 57600
- C. sh. 14880
- D. sh. 15000
- 7. Work out: <u>0.36 x 1.05 x 0.07</u> 1.8 x 0.21
 - A. 0.7

- B. 0.07
- C. 0.007
- D. 7
- 8. What is **486.8987** rounded off to the nearest hundredths?
 - A. 487.00
- B. 486.89
- C. 486.80
- D. 486.90

The table below shows the number of denomination of money Wakulima had in his kiosk

Denomination	5	10	20	40	50	100	200	500	1000
No. of coins/	38	35	30	25	22	18	15	10	5
notes									

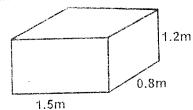

He changed all the money into equal number of sh.200 notes and sh. 20 coins. Which one shows the number of notes and coins he got?

- A. sh. 200 sh. 20 notes coin 82 82
- B. sh. 200 sh. 20 notes coin 41 41
- C. sh. 200 sh. 20 notes coin 82 41
- D. sh. 200 sh. 20 coin 41 82
- **10.** Karim bought the following items from a shop.
 - 4kg of sugar @ sh. 140
 - $\frac{1}{4}$ kg packet of tea leaves for sh. 45
 - $3\frac{1}{2}$ kg of rice at sh. 160
 - $1\frac{1}{2}$ kg of cooking fat at sh. 40 per $\frac{1}{2}$ kg
 - 2 bars of shop for sh. 110.

How much did he pay for the items?

- A. sh. 1395
- B. sh. 1335
- C. sh. 1445
- D. sh. 1505
- 11. Onyancha took 6 hours to travel from Kisii to Kisumu. If he left Kisii on Monday 2315hrs. When did he arrive at Kisumu?
 - A. Monday 5:15am
 - B. Tuesday 5:15pm
 - C. Tuesday 5:15am
 - D. Monday 5:15pm
- 12. Find the quotient of the LCM and the GCD of 36, 40 and 48?
 - A. 360
- B. 720
- C. 2880
- D. 180
- 13. What is the ratio $\frac{3}{4}$: $\frac{5}{6}$ expressed as a percentage?
 - A. 60%
- B. 90%
- C. $62\frac{1}{2}\%$
- D. 120%

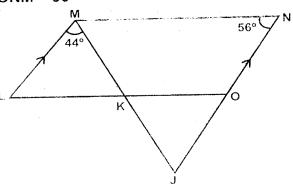

14. The container below was three quarters full of water. How much water did it contain in dl?

- A. 14400
- B. 1080
- C. 108
- D. 10800
- 15. The school field is made up of a rectangle and a semi-circle. The semi-circle has a diameter of 21m, while the rectangle measures 30m by 25m. What is the area of the field?
 - A. 923.25m²
- B. 173.25m²
- C. 1096.5m²
- D. 346.5m²
- 16. A shopkeeper bought 12 cartons of cooking fat each weighing 40kg. He repacked the cooking fats into 125g packets. How many such packets did he obtain?
 - A. 3840
- B. 380

C. 38

- D. 384
- 17. Which set of measurement can be used to construct a right angled triangle?
 - A. 2.5cm, 2.4cm, 2.6cm
 - B. 8cm, 15cm, 17cm
 - C. 9cm, 12cm, 16cm
 - D. 1.5cm, 2.0cm, 3.5cm
- 18. In the figure below line MN = LO, line NJ is parallel to ML, angle LMK = 44° and ONM = 56°

Find the measure of angle JKO?

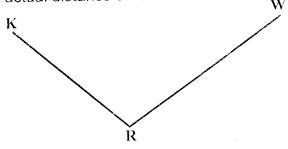

- A. 100°
- B. 80°
- C. 56°
- D. 124°
- 19. Alex bought 48 bags of cereals. He drew a pie chart to represent all the bought cereal. Maize was represented by an angle of 120°, that of beans was 150°, and the rest were rice. How many bags of rice did he have?
 - A. 20

B. 14

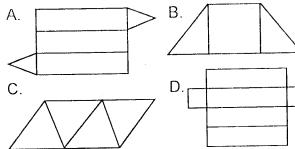

C. 16

D. 12

- 20. The area of a certain trapezium is 630cm². The two parallel sides were 48cm and 36cm. Find twice the perpendicular distance between the two parallel lines?
 - A. 15cm
- B. 30cm
- C. $7\frac{1}{2}$ cm
- D. 20cm
- 21. The diagram below shows the journey Rhoda travelled from **K** to **W** via **R**. If the scale of 1:50000 was used, what is the actual distance she covered in km?

- A. 45km
- B. 0.45km
- C. 450km
- D. 4.5km
- 22. The number of pupils in Bidii primary increased by 20% in the year 2009. In the year 2010 they decreased by 10%. If the pupils were 1944 after the decrease how many pupils were there before increase?
 - A. 1800
- B. 2160
- C. 2332
- D. 2593
- **23.** Which one of the following nets can be folded to form a triangular pyramid?

- 24. Ndoro bought a TV set for sh. 12000 after he was allowed a discount of 20%. How much would he have paid if the discount allowed was 15%?
 - A. sh. 13800
- B. sh. 7500
- C. sh. 12750
- D. sh. 1380
- **25.** The perimeter of a rhombus is **30**cm. One of the diagonal is **12**cm. What is the measure of the other diagonal?
 - A. 4.5cm
- B. 9cm
- C. 18cm
- D. 6cm
- 26. Construct triangle ABC, in which line AB = AC = 6cm and line BC = 8cm. Draw a circle touching the edges of the triangle What is the radius of the circle?
 - A. 1.8cm
- B. 3.6cm
- C. 8cm

STD. 8

D. 4cm

27. A rectangular piece of land measuring 120m by 80m was fenced around with posts placed at intervals of 5m. If a gate of 10m was left. How many posts were used?

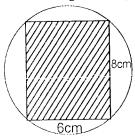

A. 78

B. 81

C. 79

D. 80

28. The diagram below shows a rectangle measuring 8cm by 6cm in a circle.

What is the area of the unshaded part (Take $\pi = 3.14$)

A. 48cm²

B. 78.5cm²

C. 30.5cm

D. 15.25cm²

29. A salesman earns a basic salary of sh. 15600. He is paid a commission for the sales he make above sh. 10000. In a certain month the earned a total of sh. 22600 after selling goods worth sh. 360000. What was the percentage commission?

A. 0.2%

C. 2%

B. 20% D. 1¹⁷/₁₈%

30. Tamara bought y oranges, Jashon bought one more orange than Tamara. Kome bought three times as many oranges as both Tamara and Jashon bought. Which expression below shows the total oranges bought?

A. 5y + 1

B. 5y + 4

C.8y + 3

D. 8y + 4

31. The table below shows the number of times three teams won, drew or lost in a competition. Three points were awarded for each game won. One point for each game drawn and no point for game lost.

	Kambi	Kingongo	Kimbo	
Won	3	4	5	
Drawn	4	5	3	
Lost	3	1	2	

Which one of the following shows the order in which teams were ranked from first to the last?

- A. Kambi, Kimbo, Kingongo
- B. Kingong'o, Kimbo, Kimbo
- C. Kimbo, Kambi, Kingongo
- D. Kimbo, Kingongo, Kambi

32. A group of twenty members contributed sh. 20000 each to buy a piece of land. They were offered sh. 150000 by a bank. If they bought the land for sh. 495650, how much money did they remain with?

A. sh. 1045650 C. sh. 54350

B. sh. 550000 D. sh. 40000

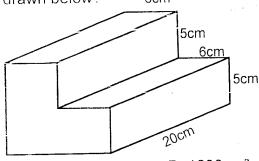

33. What is the value of y in the equation?

 $\frac{2}{3}$ (6y + 9) - (y + 5) = 7

A. 6 C. 4

D. 3

34. What is the surface area of the solid drawn below? 6cm

A. 970cm²

B. 1800cm²

C. 1060cm²

D. 1500cm²

35. A clock gains 5 second every hour. It was set right on Sunday at 7.00am. What time will it show on Friday at 7.00am?

A. 7.10pm

B. 6.50pm

C. 7.10am

D. 6.50am

36. Kamau, Mwangi and Leah shared some cows. Mwangi got $\frac{2}{7}$ of the cows, Leah got $\frac{2}{3}$ of the remainder and Kamau got the rest of the cows. If Kamau got 10 cows, how many cows were there altogether?

A. 42

B. 62

C. 60

D. 22

37. Jane deposited sh. 200,000 in a bank that paid compound interest at a rate of 8% pa. How much money did he have by the beginning of the third year?

A. s^t. 216000

B. sh. 251942.40

C. sh. 233280

D. sh. 233280.40

38. In a meeting the number of children were 1400 more than that of adults. The number of women was 215 more than that of men. The number of men was 638. How many people were in that meeting?

A. 1491

B. 4382

C. 3282

D. 2891

39. What is the difference in volumes of a cylinder of diameter 28cm with a height of 30cm and a rectangular container measuring 12cm by 8cm by 15cm?

A. 17040cm³

B. 18480cm³

40. The table below shows the postal charges for sending money order.

Value of order(sh)	Commission(sh)
Not over 500	50
501 - 1000	80
1001 - 5000	150
5001 - 10000	280
10001 - 20000	500
20001 - 50000	780

Serina sent two money orders of sh. **15000** and **42600**. How much money did she pay at the post office altogether?

A. sh. 1280

B. sh. 69160

C. sh. 1560

D. sh. 58880

41. Draw parallelogram JKLM where KL = 7.8cm angle JKL = 105° and line JK = 4.5cm. Draw a perpendicular from K to meet line JM at P. What is the measure of line KP?

A. 6.8cm

B. 7.8cm

C. 4.3cm

D. 4.8cm

42. The charges for sending a telegram are as follows. The first 10 words or less you pay sh. 22.50. Any extra word is charged sh. 1.70 each. A tax of 10% of the total is charged. The total amount is rounded off to the nearest shilling. How much did Salim pay to sent the telegram below.

ABDI HAKIM BOX 12569 ISIOLO SCHOOL FEES NOT PAID SEND IMMEDIATELY SALIM

A. sh. 28.49

B. sh. 28.00

C. sh. 26.00

D. sh. 29.00

43. Given that x = 4, 5 = y - x and z = y + 1 find the value of

$x(z-y)^2+z$

x + z

A. 14 C. 2 B. 1

44. Twelve workers can complete a certain job in 5 days. How many more days can 10 workers take to complete the same job?

A. 1

B. 6

C. 11

D. 2

45. The hire purchase price of a bed is 20% more than market price. When bought on cash, a discount of 10% of the marked price is given. Salome bought it on cash where she paid sh. 13500. Njamba bought the same through hire purchase he paid a deposit of sh. 6000 and equal monthly instalment of the remaining amount in 10 months. How much did he pay each month?

A. sh. 750

B. sh. 1200

C. sh. 900 D. sh. 1500

46. Mugo's car uses 1.5 litres of petrol to cover 18.5km. Each litre of petrol costs sh. 95. How much money does he require for fueling his car if he want to cover 148km?

A. sh. 12

B. sh. 1171.60

C. sh. 1825.30

D. sh. 1140

47. Which statement is true about all quadrilaterals?

A. Have at least a pair of parallel lines.

B. Opposite angles are equal.

C. Interior angles add upto four right angles

D. Diagonals intersect

48. The table below show the amount of milk delivered and the amount sold in one week by a processing plant.

			·			
Days	Mon	Tue	Wed	Thu	Fri	Sat
Amount delivered(L)	120	180	160	170	150	200
Amount sold on (L)	150	200	100	210	120	230

Which day did the plant sell $\frac{4}{5}$ of the amount delivered?

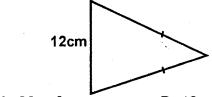

A. Monday

B. Wednesday

C. Tuesday

D. Friday

49. What is the area of the figure below if the perimeter is **32**cm?

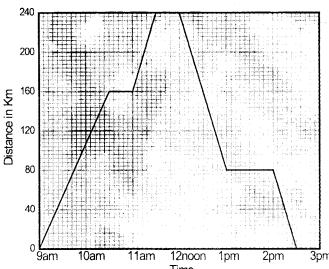

A. 60cm²

B. 48cm²

C. 120cm²

D. 24cm²

50. The graph below shows the journey of a motorist from town **J** to town **R** and back.

What was his average speed between 11.00am and 1.30pm?

MATHEMATICS

A. 100km/h

B. 120km/h

C. 80km/h

D. 96km/h
