### Section- A

# Task 1: Listening and speaking

Teacher reads the dialogue below and ask the learners to answer the questions after reading it himself/herself again.

Conductor:

Hello, where to?

Passenger:

To Kenyatta National Hospital, to visit my sick

mother-in-law

Conductor:

Get in, We are heading past there, i will drop you.

Passenger:

How much will you charge me.

Conductor:

I will not charge you i will give you a free ride for

today.

Passenger:

Wow! thank you very much, May God bless you.

Conductor:

Amen, wish your mother-in - law a quick recovery.

Passanger:

For sure, Bye

### Answer the questions below.

## Teacher asks the learner the questions that follow.

a) Where was the passanger heading to?
 (learner responds)

- b) Why do you think the conductor gave the passanger a free ride? (learner responds)
- c) Who was being visited at the hospital?(learner responds)
- d) How much did the passanger pay for the ride? (learner responds)

### Task 2: Reading

### Read the passage below and answer the questions below

Trees give us many things. One of these is food for humans and animals. Birds and insects also get food from trees.

For many years forests have always provided wood, honey, medicinal herbs, gum and barks of trees.

Trees are also sources of fuel. Many people use firewood for cooking and heating their homes. We get oxygen from trees. Forests are homes of wild animals, birds and other organisms.

<ul> <li>a. What gives us food?</li></ul>	
<ul> <li>c. Trees are also sources of</li> <li>b. Which gas do we breath in?</li> <li>e. Wild animals and birds live in the</li> <li>Section C.
