Candidate's Signature Date

Instructions to Candidates

- Write your name and index number in the spaces provided above.
- Sign and write the date of examination in the spaces provided above.
- Answer **all** the questions in the spaces provided.
- You are required to spend the first 15 minutes of the 1¾ hours allowed for this paper reading the whole paper carefully before commencing your work.
- Additional pages must not be inserted.
- This paper consists of 7 printed pages.
- Candidates should check the question paper to ascertain that all the pages are printed as indicated and that no questions are missing.
- Candidates should answer the questions in English.

For Examiner's Use Only

Question	Maximum Score	Candidate's Score
1	14	
2	14	
3	12	
Total Score	40	

1. (a) You are provided with plant specimens labelled **E, F, G, H,** and **J.** Use the specimens to develop a dichotomous key that can be used to identify the plants from which they were obtained based on the following characteristics in the order they are given: (6 marks)
- (i) Leaf form
 - (ii) Leaf venation
 - (iii) Leaf colour

(b) Account for the likely observation if fresh specimen **E** was exposed to light and tested for starch. (3 marks)

.....

.....

.....

.....

(c) Explain **one** observable feature that adapts plants from which specimen **G** and **H** were obtained to a dry environment.

G (2 marks)

.....

.....

.....

H (2 marks)

.....

.....

.....

(d) Besides leaf characteristics, state **one** other observable characteristic on the plant from which specimen **F** was obtained that enables it to be placed in its Class. (1 mark)

.....

.....

157

3. You are provided with specimen N and P which are plants of the same species grown under different conditions.

(a) State **two** observable differences between the two specimens. (2 marks)

.....
.....
.....
.....
.....
.....

1316

(b) (i) Name the phenomenon observed in specimen N. (1 mark)

.....
.....

(ii) Explain how the knowledge on the phenomenon named in b(i) is applied in agriculture. (2 marks)

.....
.....
.....
.....
.....
.....

(c) Account for the appearance of specimen N. (3 marks)

.....
.....
.....
.....
.....
.....

(d) State **two** other environmental factors necessary for seed germination apart from light. (2 marks)

.....

.....

.....

.....

.....

.....

(e) State **two** observable features on the specimens that make them be placed in the same Class. (2 mark)
