Example

In the question booklet:

- 33. Which one of the following is the third stage of HIV/AIDs infection?
 - A. Incubation
 - B. Full blown
 - C. Window
 - D. Symptomatic

The correct answer is D.

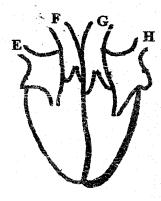

On the answer sheet:

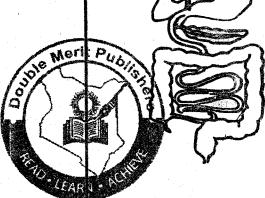

In the second set, the box with the letter D printed in it is marked.

- 11. Your dark line MUST be within the box.
- 12. For each question ONLY ONE box is to be marked in each set of four boxes.

This question paper consists of 8 printed pages.

- The function of haemoglobin in red 1. blood cells is to
 - A. transport digested foods
 - B. clot blood after an injury
 - C. combine with oxygen gas
 - D. carry carbon dioxide gas
- Which one of the following is a social 2. effect of drug abuse?
 - A. Impaired judgement
 - B. Withdrawal
 - C. Addiction
 - D. Loss of income
- The diagram below represents the heart 3. of a mammal.

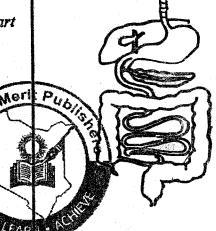

In which pair of blood vessels is the blood under highest pressure?

- A. Eand F
- B. F and G
- C. G and H
- D. E and G
- Which one of the following components of environment do all animals depend on directly?
 - A. Air and soil
 - B. Water and soil
 - C. Water and air
 - D. Soil and plants

- In female reproductive system, which 5. part receives sperms and allows delivery of the foetus?
 - A. Ovary
 - B. Oviduct
 - C. Uterus
 - D. Vagina
- The diagram below shows the human 6. digestive system.

The juice produced at the part labelled Q is used to digest

- A. proteins
- B. vitamin and mineral salts
- C. starchy foods
- D. body building food
- Which of the following parts of breathing 7. system are both involved in cleaning, warming and moistening air?
 - A. Trachea and nose
 - B. Lungs and trachea
 - C. Nose and lungs
 - D. Nose and bronchus

- 8. The following are characteristics of a certain type of tooth.
 - i) sharp
 - ii) chisel shaped
 - iii) has one root

Type of tooth described above is likely to be

- A. molar
- B. incisor
- C. premolar
- D. canine
- 9. Which one of the following consists a group of plants that cannot make their own food?
 - A. Mould, lichen, yeast
 - B. Peas, moss, millet
 - C. Toadstool, puffballs, mushroon
 - D. Fern, mould, moss
- 16. Which of the following pair of disbe be prevented by vaccination?
 - A Bilharzia, tetanus, measles
 - B. Polio, whooping cough, yellow fever
 - C. Diptheria, malaria, cholera
 - D. Marasmus, measles, yellow fever
- 11. If anthers of a flower were cut off before they mature, which of the following statements would be correct?
 - A. Germination of pollen grains will not take place
 - B. Pollination will not take place
 - C. Fertilization will not take place
 - D. Ovary will form fruits

- 12. Which one of the following activities is not a drug abuse?
 - A. Taking less dose of prescribed drug
 - B. Taking prescribed medicines for long time
 - C. Taking medicines prescribed to someone else
 - D. Using drug to induce sleep
- 13. Which one of the following pair of drugs are harmful but are legal in Kenya?
 - A. Tobacco and alcohol
 - B. Miraa and bhang
 - C. Bhang and alcohol
 - D. Tobacco and inhalants
 - Which one of the following statement is the about vena cava? It carries oxygenated blood
 - blood from the lungs
 - C. deoxygenated blood
 D. blood from the heart
- 15. The vaccines given at nine months after birth protect an infant against
 - A. tetanus and yellow fever
 - B. diptheria and measles
 - C. measles and yellow fever
 - D. tuberculosis and polio

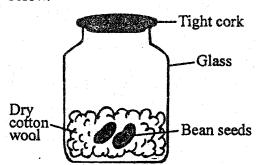

- 16. Which one of the following statements best describes the term environment?
 - A. The surrounding of a living organism
 - B. The source of food for living organism
 - C. The habitat of a living organism
 - D. The home of a living organism
- 17. Which one of the following physical changes takes place during adolescence in boys only?
 - A. Increase in body weight and height
 - B. Production of mature sex cells
 - C. Chest and shoulders broadens
 - D. Enlargement of breast
- 18. Which of the following pair consists of root tuber crops only?
 - A. Arrow roots, cassava, sweet potatoes
 - B. Irish potatoes, cassava, carrots
 - C. Yams, carrots, ginger
 - D. Arrow roots, sugarcane, irish potatol
- 19. Which one of the following statement about HIV and AIDs is true?
 - A. HIV and AIDs is curse
 - B. During window stage a person tests negative
 - C. People with HIV/AIDs are thin
 - D. AIDs develop during incubation period
- 20. Which of the following method would not be effective in controlling the spread of malaria disease?
 - A. Clearing bushes around our homestead
 - B. Isolating patients with malaria
 - C. Draining stagnant water
 - D. Sleeping under treated mosquito nets

- 21. The following are parts of a flower.
 - i) anthers
 - ii) style
 - iii) ovary
 - iv) stigma

Which pair of parts are involved in pollination?

- A. i, iv
- B. i, ii
- C. iii, iv
- D. ii, iii
- 22. Which of the following shows the 4th and 7th planet from the sun respectively?
 - A. Jupiter, Uranus
 - Mars, Uranus
 - C. Jupiter, P. Venus, Neptune

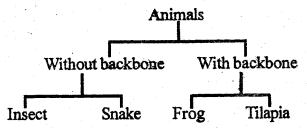

When investigating a certain condition Recessary for germination bean seeds were placed in a glass container as shown below.

The reason why the bean seeds did not germinate was due to lack of

- A. soil
- B. warmth
- C. moisture
- D. oxygen

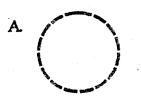

24. A pupil classified some animals as shown in the chart below.

Which of the following animal was wrongly classified?

- A. Tilapia
- B. Frog
- C. Snake
- D. Insects
- 25. Which one of the following statement true about sheet erosion?
 - A. Forms small and shallow channels
 - B. Controlled by making terral
 - C. Occurs below roofs of building
 - D. Removes a thin uniform layer of top soil
- 26. Which of the following only consists of energy giving foods?
 - A. Lemon and cabbages
 - B. Bread and coconut
 - C. Fish and milk
 - D. Ugali and spinach

- 27. In an investigation, pupils observed a raised coin in a glass of clean water. The pupils were investigating
 - A. reflection of light
 - B. dispersion of light
 - C. how light travels
 - D. refraction of light
- 28. Which one of the following diagram shows the shape of the new moon?

B.

The embryo of a seed is made up of

- A Cotyledon and plumule
- B. Endosperm and cotyledon
- C. Plumule and endosperm
- D. Radicle and plumule
- 30. When modelling the solar system, the material used to fix models of the sun and the planets to their respective positions is
 - A. manila paper
 - B. plasticine
 - C. pins
 - D. name tags

- 31. A heap of fresh garden soil was placed in a container covered with a sheet of glass and then heated. Which of the following component of soil was the set-up used to investigate?
 - A. Organic matter
 - B. Water
 - C. Air
 - D. Living organisms
- 32. Which one of the following farm animals are correctly grouped according to their products?
 - A Poultry eggs and beef
 - B. Sheep mutton and milk
 - C. Goats milk and mutton
 - D. Cattle beef and layers
- 33. The following materials were assembled by pupils to make a beam balance.
 - i) Two similar tins
 - ii) Nails
 - iii) base stand
 - iv) piece of wood
 - Which one of the following material was missing?
 - A. A string
 - B. Soft board
 - C. Scale
 - D. Glass bottles
- 34. Which one of the following is an advantage of stall feeding?
 - A. The animals feed on pastures directly
 - B. It is cheap to start
 - C. Requires alot of labour
 - D. Feeds are well utilized without wastage

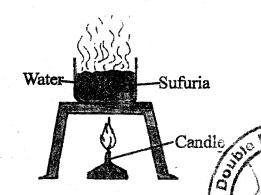

- 35. Which of the following pair consists of nutritional deficiency disease caused by lack of minerals in the diet?
 - A. Rickets and marasmus
 - B. Anaemia and rickets
 - C. Anaemia and measles
 - D. Marasmus and kwashiorkor
- 36. Which one of the following is not a reason for lighting a house?
 - A. To read comfortably
 - B. For safety purposes
 - C. To avoid accidents
 - D. To warm the house

which one of the following group consists of substances with definite time and definite shape?

Kerosene, nails and sand

- B. Oxygen, carbon dioxide, inert gases
- C. Stones, pins, milk
- D. Sugar, wood, wax
- 38. In our home draining of stagnant water can prevent the spread of
 - A. Malaria and bilharzia
 - B. Typhoid and malaria
 - C. Cholera and typhoid
 - D. Bilharzia and cholera

- 39. Which one of the following pair of signs and symptoms is for cholera disease only?
 - A. Skin rashes and mild diarrhoea
 - B. Blood in stool and dehydration
 - C. Abdominal pain and sore in the mouth
 - D. Violet diarrhoea and abdominal pain
- **40.** The diagram below shows water in a sufuria being heated.

The heat transfer at point X is

- A. convection
- B. conduction
- C. radiation
- D. expansion
- 41. Which of the following group of foodstuffs can be preserved by use of low temperatures in our homes?
 - A. Soda, meat, legumes
 - B. Fish, salt, mutton
 - C. Fresh milk, meat, fruits
 - D. Vegetables, grains, meat

- 42. Shadows of objects are formed when light
 - A. is refracted as it passes through from the water to the air.
 - B. falls on opaque objects, the light is stopped and darkness forms behind the object.
 - C. falls on a shiny polished and smooth surface.
 - D. falls on a surface at an angle.
- 43. Which one of the following is a transparent material?

Manilla paper

Window panes

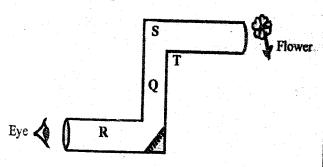

Mirror

Milk

The main constituent of a balanced diet obtained by feeding animals with both salt licks and fish meat is

- A. minerals
- B. fats and oils
- C. carbohydrates
- D. proteins

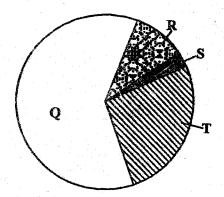

45. The diagram below represents a pupil observing an object at the corner using a periscope.

For the instrument to work properly a mirror is supposed to be placed at point

- $\mathbf{A} \cdot \mathbf{Q}$
- B. R
- C. T
- D. S
- 46. Which one of the following pair consists only of materials that would sink in water when their shape are changed?
 - A. Wax and wood
 - B. Glass and ship
 - C. Sufuria and nail
 - D. Bottle top and metallic plate
- 47. Which of the following pair of activity only consists of industrial use of water?
 - A. Transport and mixing chemicals
 - B. Boat racing and swimming
 - C. Washing utensils and making fountain
 - D. Cooling machines and mixing chemicals

48. The chart below represents proportion of the components of air.

Which labelled part represents the gas that is necessary for germination?

- A. S
- B. **Q**
- C. R
- D. T

wton is a unit used for measuring

- A energy
 - force
 - mass
- 5. pressure

LEARN . NO

- 50. Which one of the following is **true** about the soil that has high water retention?
 - A. Large air spaces
 - B. Large soil particles
 - C. Low capillarity
 - D. Fine texture
