SCHOOL BASED EVALUATION TEST STANDARD EIGHT YEAR - 2020

SCIENCE

73314403

READ THESE INSTRUCTIONS CAREFULLY

- Use an ordinary pencil only.
- Make sure that you have written on the answer sheet. 2.

I. YOUR NAME

II. NAME OF YOUR SCHOOL

Time: 1 Hour 40 Mins.

Which one of the following types of human teeth is not correctly matched with its function?

Teeth

Function

A. Premolar

Tearing and grinding

B. Canines

Tearing and holding

C. Molar

Crushing and grinding

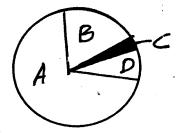

D. Incisors

Cutting and biting

- Which one of the following pairs of drugs consist of illegal and legal drugs respectively?
 - A. Miraa and madrax
 - B. Alcohol and cobras glue
 - C. Cocaine and alcohol
 - C. Tobacco and khat
- The beak of a bird drawn below is adopted to feed on

A. grain B. fish C. fresh D. nectar The pie chart below shows air composition.

- 4. Which letter represent air used in burning?

C.

The chart below represents a simple classification of plant?

Plants Flowering Non-flowering Mango Cypress

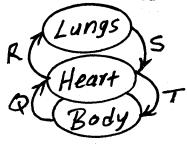

Which plants are represented by Y and X respectively?

A. Beans and maize

B. Maize and moss

C. Cedar and tomatoes D. Moss and fungi

The below diagram shows the human circulatory system. Which blood vessels carry oxygenated and deoxygenated blood respectively?

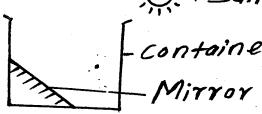

A. R and T

B. Q and S

C. T and S

D. S and O

The diagram belo v represent a set up used to investigate aspect of light.

The aspect being investigated is

A. reflection

B. making a rain bow

C. refraction of light D. how light travels

- Which one of the following is both an oil crop and fibre crop?
 - A. Barley B. Coconut C. Sisal D. Simsim
- The following are importances of lighting a 9. house except
 - A. read comfortably
- B. discourage pest
- C. using artificial light D. avoid accidents
- 10. The following are the main methods of grazing except
 - A. strip grazing
- B. rotational grazing
- C. stall feeding
- D. herding

- 11. Which one should be avoided during heavy thunderstorm?
 - A. Leaning on the wall
 - B. Sitting next to fire
 - C. Wearing a red t-shirt
 - D. wearing shoes with a rubber sole
- 12. The following are functions of part of the reproductive system:
 - (i) Allow the passage of ovum to the uterus
 - (ii) Production of the sperm
 - (iii) Allow the passage of sperms and urine
 - (iv) Production of the ova
 - (v) Carry the sperm from the tests to the urethra

Which of the above functions are found in the part of the female reproductive system?

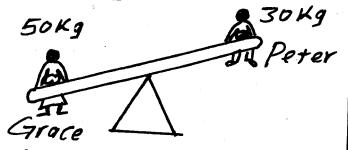

A. ii, iv

B. iii, i

C. iv, i

D. v, ii

13. Grace and Peter were playing on a see-saw as shown below.

In order to balance on the see-saw

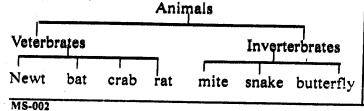

- A. Peter should move closer to the pivot
- B. both Peter and Grace should move closer to pivot
- C. move the pivot towards Peter
- D. Grace to move loser to the pivot
- 14. When a substance dissolves in a solvent it's forms a
 - A. solute

B. solution

C. filtrate

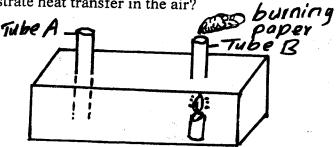

D. residue

- 15. Which one of the following need **not** be the same when investigating soil capillarity?
 - A. Size of the tube
 - B. Size of soil particles
 - C. Time taken
 - D. Amount of cotton wool
- 16. The diagram below shows classification of animals.

Which animals are wrongly classified?

- A. Bat and snake
- B. Mite and crab
- C. Snake and crab
- D. Rat and butterfly
- 17. The following set-up was used by class 5 pupils in Kapendo primary school to demonstrate heat transfer in the air?

Which mistake did they make?

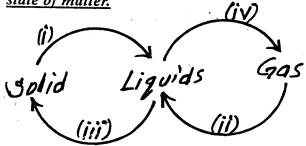

- A. Using two tubes
- B. Placing the burning paper above tube B
- C. Using the same size of tubes
- D. Using a burning candle
- 18. The following are signs symptoms of a certain disease:
 - (i) Prolonged cough

(ii) Fever

- (iii) Pain in the joints
- (iv) Chest pains
- (v) Shivering

Identify the signs for TB

- A. i, ii, iv
- B. i, iii, v
- C. ii, iv, v D. ii, iv, v
- 19. The diagram below shows the changes in the state of matter.

Which of the processes is an effect of decreasing heat?

- A. ii. iv
- B. i, iii
- C. iii, iv
- D. ii, iii
- 20. A farmer noticed small and shallow channels forming in his garden due to running water. This type of soil erosion is
 - A. splash
- B. sheet
- C. rill
- D. gulley
- 21. The following are ways of using water sparingly. Which one is **not**?
 - A. Repairing leaking pipes
 - B. Recycling sewage and water
 - C. Close water taps when not in use
 - D. using drip irrigation

- 22. Which one of the following only consist's of materials that are magnetic?
 - A. Iron fillings, tin, steel., nickel
 - B. Zinc, chromium, cobalt, tin
 - C. Wood, silver, iron, gold
 - D. Tin, steel, paper, chromium
- 23. Which one of the following statement does not describe cumulus clouds?
 - A. They bring rain
 - B. They have flat base
 - C. They are common in fine weather
 - D. They are thick and feathery
- 24. The following are parts of digestive system and their functions. Which one is correctly matched with its function?
 - A. Mouth remove undigested materials
 - B. Small intestine mix food with saliva
 - C. Rectum where digestion ends
 - D. Large intestine absorption of water and mineral salts
- 25. The following are signs and symptoms of nutritional deficiency diseases.
 - (i) Breathlessness
 - (ii) Brown hair
 - (iii) Pot berry
 - (iv) Paleness of the skin
 - (v) Sores at the corner of the mouth
 - (vi) Feeling tired easily

Which signs are for anaemia?

- A. i, iv, vi
- B. i, ii, iii
- C. ii, iii, iv
- D. iii, v, vi
- 26. Which one of the following is not a way of decreasing friction?
 - A. Streamlining
- B. Using rollers
- C. Using lubricants D. Treading
- 27. The following are characteristics of matter:
 - (i) Has a definite mass
 - (ii) Has no definite volume
 - (iii) Has no definite shape

The above characteristics are for ____ material A. sand B. kerosene C. oxygen D. stone

- 28. The following activities were undertaken when modelling the solar system.
 - (i) Drawing circles on manila paper to show
 - (ii) Put name tags on models of planets and the
 - (iii) Model the sun and the planets
 - (iv) Paste manila paper on soft board using glue
 - (v) Mount the planets and the sun using pins or thorns

Which arrangement shows the correct order it which the activities were carried out?

- A. i, iii, iv, v, ii
- B. iii, i, iv, ii, v
- C. iv, i, iii, v, ii
- D. iii, iv, i, v, ii
- 29. The main function of deep root in plant tha grow in dry area is to
 - A. photosynthesis
 - B. absorb oxygen
 - C. bring about dormancy
 - D. tap water from underground
- 30. The following are effects of pest on crops. Which one is not?
 - A. Lower yields
 - B. Wilting
 - C. Reduced quality of produce
 - D. Cause diseases to crops
- 31. Which of the following body fluids is the least likely to transmit HIV?
 - A. Saliva B. Semen C. Breast milk D. Blood
- 32. The force that pull an object towards the ground is called
 - A. force of a magnet B. friction
 - C. inertia
- D. force of gravity
- 33. The following are examples of sexually transmitted infection except
 - A. gonorrhea
- B. chancroid
- C. tuberculosis
- D. syphilis
- 34. Four pupils were asked by their Science teacher to name field pest. Who was wrong?
 - A. Weevils, stalkborers, cutworms
 - B. Aphids, weaverbirds, stalkborers
 - C. Stalkborers, cutworms, aphids
 - D. Cutworms, aphids, stalkborers
- 35. Which one of the following is not a way of preventing water borne diseases?
 - A. Drinking boiled water
 - B. Washing hands before visiting the toilet
 - C. Proper disposal of faeces
 - D. Wearing protective clothing
- 36. A plant which has deep roots and succulent stem is likely to have
 - A. thin cuticle
- B. broad leaves
- C. needle like leaves D. air sacs
- 37. The following are uses of some components of
 - (i) Germination
 - (ii) Preserving soft drinks
 - (iii) Making light bulbs
 - (iv) Making plant food

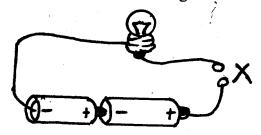

Which two uses are for the component that makes up to 0.03% of air?

- A. i and ii
- B. ii and iv
- C. iii and iv
- D. ii and iv

- 38. The following are safety measure when dealing | 45. The surroudnign of a living thing is referred to with electricity. Which one is not?
 - A. Do not touch naked electrical wires
 - B. Do not overload sockets
 - C. Avoid having cables under the carpet
 - D. Avoid sheltering under a tree
- 39. The following are processes that take place during birth in humans:
 - (i) Contractions of the uterine wall
 - (ii) The clotting of the umbilical cord
 - (iii) widening of the cervix
 - (iv) Releasing of amniotic fluid
 - (v) The baby comes out
 - (vi) Release of after birth

Which of the following is the correct order?

- A. iv, iii, ii, v, vi
- B. v, iii, iv, vi, iii
- C. i. v, ii, iii, iv
- D. iv. iii. v. ii. vi
- 40. Which of the following materials if placed at point X will make the bulb light?

- A. Toothpick
- B. Rubber
- C. Graphite rods
- D. Hair
- 41. Which one of the following shows a pair of both modern and traditional methods of preserving food?
 - A. Use of low temperature and drying
 - B. Freezing and cunning
 - C. Drying and salting
 - D. Smoking and drying
- 42. The following are characteristics of all animals except'
 - A. remove waste
- B. feed
- C. give birth
- D. die
- 43. Which one of the following is not a major component of environment?
 - A. Soil
- B. Water
- C Light
- D. Animals
- 44. Which one of the following groups consist's of only food stuffs that are used for body building and repair?
 - A. Eggs, peas, milk, fish
 - B. Rice, oranges, meat, potatoes
 - C. Wheat, fish, maize, bread
 - D. Beans. potatoes, maize, cassava

- - A. habitat
- B. shelter
- C. environment
- D. home
- 46. The following are factors that affects floting and sinking. Which one does not?
 - A. Weight
- C. Shape
- D. Type of materials
- 47. Class 7 pupils were asked by their Science teacher to name natural manure. who was wrong?
 - A. Ann: Green manure
 - B. Mary: CAN
 - C. James: Farmyard manure
 - D. Daniel: Compost manure
- 48. Class 5 pupils of Makuyu primary school were asked to bring the following materials in class:
 - (i) A glass bottle
 - (ii) Ink
 - (iii)Inner tube of ballpoint
 - (iv) A cork
 - (v) Water
 - (vi) Strong manila paper and cellotape Which weather instruments were they likely to make?
 - A. An air thermometer
 - B. A liquid thermometer
 - C. Wind sock
 - D. Rain gauge
- 49. The following are effects of sound pollination except
 - A. feeling comfortable
 - B. becoming irritable
 - C. losing ability to hear
 - D. becoming more alert
- 50. In which one of the following diagram did the seeds germinate?
